Sir:

Pursuant to 37 C.F.R. §1.97, as revised on February 4, 1992, 1135 OG 23-24, Applicant hereby calls the Examiner's attention to document listed on the attached form, which may be material to the examination of this application. A copy of that reference is enclosed herewith for the Examiner's consideration.

No inference should be drawn that the attached list sets forth a comprehensive investigation of prior art, that any or all are pertinent to the invention, or that any apparatus disclosed is equivalent to the subject invention.

The citation of the above-discussed is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.

The reference cited herein was formerly U.S. Publication 2001/0025960, which was cited by the Examiner in the Office Action regarding the subject application mailed by the Office on November 17, 2004, and now has issued as US 6,558,993. Accordingly, Applicants do not know if any fee is due for this IDS. If a fee is required for this Supplemental Information Disclosure Statement, please charge our Deposit Account No. 50/1039.

Respectfully submitted,
